

Naranja Park Splash Pad Design

Thank you to everyone that participated and provided feedback regarding the Naranja Park splashpad design! There were over 950 surveys submitted and 69% of those votes were in favor of option B. This option can be seen below and includes the slide. As a reminder, while it's not pictured below, the design will include shade and seating. Comments that were submitted regarding safety have been noted and will be shared with the design team. We anticipate the splashpad opening in late spring/early summer of 2024.
