Disclaimer: Numbers may show slight fluctuations when compared to previously published reports because of changes in the case data within the system due to normal adjustments. Although this data may change as it is as accurate as it can during this time period. As of 2021, OVPD began transitioning to a new standard data reporting. This implementation of the National Incident-Based Reporting System (NIBRS) provides accurate tally of crimes because of its ability to "provide circumstances and context for crimes...". Because data is not available for the year 2020, these charts will be comparing our traditional way of tracking crime in 2020 to NIBRS for 2021 and beyond.
