

Lambert Lane: Rancho Sonora Drive to La Cañada Drive

Project Information

1. What are the limits of the project?

- Lambert Lane will be improved from west of Rancho Sonora Drive to just east of the La Cañada intersection.
- The project length is approximately 0.5 miles.
- The project will tie into the recently constructed Lambert Lane project from La Cañada Drive to Pusch View Lane.

2. What are the benefits of the project?

- Improves safety and stopping sight distance by lowering the hill elevation approximately 12 ft. west of La Cañada Drive.
- Increases traffic capacity.
- Improves bicycle and pedestrian mobility and safety.
- Enhances the right-of-way with landscape and wall aesthetics.

3. What type of improvements will the project contain?

- A four lane divided roadway with raised medians, curbs, bike lanes, drainage crossings, and storm drains.
- Cast-in-place walls, soil nail walls, and grouted riprap retaining structures.
- Sidewalks, multi-use paths, bus pullouts, landscaping, and new traffic signal facilities.
- Dedicated left turns at the intersection and side streets.
- Dedicated right turn lane for EB Lambert Lane to SB La Cañada traffic movements.
- Rubberized asphalt paving for durability, ride ability, and reduced noise from tire interface.

4. How long will it take to improve Lambert Lane?

- Final design is approximately 95% complete.
- Final design will be complete by the end of 2015.
- Right-of-way easement acquisitions have commenced and will continue until spring 2016.
- Utility relocations will occur both prior to construction in spring 2016, as well as during roadway construction
- Construction is expected to begin in spring/summer 2016.
- Construction will take approximately 1 year to complete.

5. How wide is the Lambert Lane right-of-way?

- The existing right-of-way is approximately 150' wide.
- Right-of-way acquisitions will be limited to minor slope, drainage, soil nail, and temporary construction easements.

6. Will there be public input on this project?

- Public input is gathered at the Open Houses through a survey.
- A pre-construction Open House will be held in spring/summer 2016

7. How can I learn more about the project?

- Questions can be directed to: Jose Rodriguez, Town of Oro Valley, 229-4872.
