

IRHS Graduation Parking

Road construction on Naranja poses a unique challenge for IRHS graduation parking. Parking is available in all of the school parking lots starting at 5:00 PM. In order to maximize campus parking capacity, the Oro Valley Police Department, Explorers, and other community volunteers will be directing all parking in the west student parking lot. All initial traffic will be directed to enter the student lot through the new, west entrance. From there, volunteers will direct all cars to a specific parking spot. Once the student lot is at capacity, volunteers will direct cars to parking areas located in the construction zone.

We are asking all graduation guests to follow parking and construction signs as well as directions from parking lot volunteers in order to maximize campus parking and to ensure the highest level of safety in the construction zone. The construction company has graciously allowed us to move overflow parking into the construction zone after we have utilized campus parking capacity. For everyone's safety, please follow all directions from parking volunteers and stay clear of all construction hazards.

We are so excited about graduation and we look forward to hosting all family and friends of the 2015 graduates of IRHS. See you May 20th at 7:00 PM.
